

Precision Medicine in Musculoskeletal Care

FRIDAY, MAY 28, 2021 8:00am-12:00pm PT / 11:00am-3:00pm ET

RSVP @ bit.ly/Ortho-REACH-Retreat AGENDA @ bacpac-reach.org/retreat

KEYNOTE SPEAKER:

Keith Yamamoto, PhD
Professor, Cellular Molecular Pharmacology
Vice Chancellor, Science Policy and Strategy
Director, Precision Medicine, UCSF

REACH is a center that conducts both translational and clinical research to clarify biopsychosocial mechanisms of back pain – the interconnection between biology, biomechanics, psychology, and socio-environmental factors – which are the catalytic for new therapeutic, diagnostic and prevention strategies.
